Seminars were organized to bridge the gap between the concepts that are learned in class to their practical utility in the Corporate Scenario. Various Workshops conducted allowed the students to enhance their communication skills and build confidence through public speaking.

Management and Faculties at SBS have been maintaining close ties with the industry, regularly inviting Eminent Speakers – Industry Experts who enrich young minds with real-life practical knowledge. These experts share their professional experiences giving a good idea of some of the challenges the workplace brings giving the future managers of SBS valuable insights on how to deal with them more smartly.

SBS has been quick in adopting to the radical change in education created by the “New Normal” and has strived to provide quality learning through online mediums. Adopting the online tools like Videos, Podcasts and PDFs, teachers have become more efficient educators also it gave the flexibility to students to attend classes at any location. SBS has successfully countered the negative impact of online education by encouraging students to be responsible, self-disciplined, motivated, and develop a good sense of time management skill.
