Director, Shanti Business School, Ahmedabad

In the ever-evolving world of higher education, where impact is often measured in outcomes and influence, Dr. Neha Sharma stands out as a visionary leader who is redefining what it means to educate for the future. As Director of Shanti Business School (SBS), Ahmedabad, she has transformed a small, niche institution into a hub of intellectual and corporate insights. With over two decades of experience across academia and corporate strategy, Dr. Sharma's journey is rooted by an unwavering belief that the Corporate Intelligence Quotient (CIQ)—a refined blend of strategic, innovation, and societal responsibility—is the true benchmark for modern leadership.

**● A LEADERSHIP JOURNEY ROOTED IN REINVENTION**  
Dr. Neha Sharma's academic and professional journey is a testament to her vision of educational excellence. From her early role in corporate strategy to her current position as Director of SBS, she has consistently redefined institutional success. Armed with a Doctorate in Business Marketing and an MBA, she is a recognized force in higher education innovation. At SBS, she has instilled a new ethos—fostering a culture where experimentation, inquiry, and excellence are inseparable. Her vision is not just a commitment to personal achievement but an ongoing mission to design business education with purpose, agility, and innovation.

**● THE SBS REVOLUTION: A LIVING CURRICULUM FOR A MOVING WORLD**  
Shanti Business School, under Dr. Sharma's leadership, is more than an academic institution—it is a living ecosystem of learning, shaped by the real-world pulse of industry and innovation. She has embedded into the SBS DNA a forward-thinking curriculum that includes certifications in Financial Modelling, Digital Marketing, Design Thinking, and Business Simulation. Students engage with business real-world issues, developing real-time problem-solving capacity in controlled environments.

**● CIQ IS MORE THAN A METRIC—IT'S A MINDSET**  
Dr. Sharma trains students to lead not just companies, but change.

The partnership with Global Institute for Advanced Brand Management, strategic collaborations in India with one of the largest accounting firms, and a workshop alliance with IBM Bangalore on Business Intelligence further exemplify her commitment to innovative digital education. These alliances are not add-ons—they are the core of what makes SBS distinct.

**● CORPORATE INTELLIGENCE AS A NEW BENCHMARK**  
Dr. Sharma has pioneered a concept central to SBS's academic model: Corporate Intelligence Quotient (CIQ). This multidimensional framework nurtures leaders who not only think analytically but lead ethically and accountably. In an era where business demands resilience, empathy, and agility, CIQ stands as her answer to the next generation of leadership needs. At SBS, education doesn't stop at skills—it fosters a sense of readiness.

talent. The emphasis is on nurturing individual potential, through intensive mentorship and custom pathway tailored to each student's aspirations. Industry-linked electives like "20 in Marketing" and "Supply Chain Analytics" allow students to stay ahead of the business curve.
